

Train with 3M at the Skills Development Center

Overview:

- 15,000 sq. ft. facility in St. Paul, MN dedicated to technician training
- Helps deliver quality repairs while maximizing efficiency, productivity, and the bottom line
- Aligned to industry trends – significant need for qualified collision repair technicians
- New capability of 3M, in addition to existing services offering
- Key differentiators of offering:
 - o Formal and structured curriculum
 - o Process/Skills focused – Not product demos/commercials
 - o Assessment of learning objectives
 - o I-CAR Training Alliance credit

Course Offering:

- Experienced trainers, with 75+ years of combined industry experience
- Two initial course offerings – Body Repair; Paint Prep & Refinish
 - o 2 ½ - 2 ¾ days
 - o 80% hands on
 - o \$2,500 price / attendee*

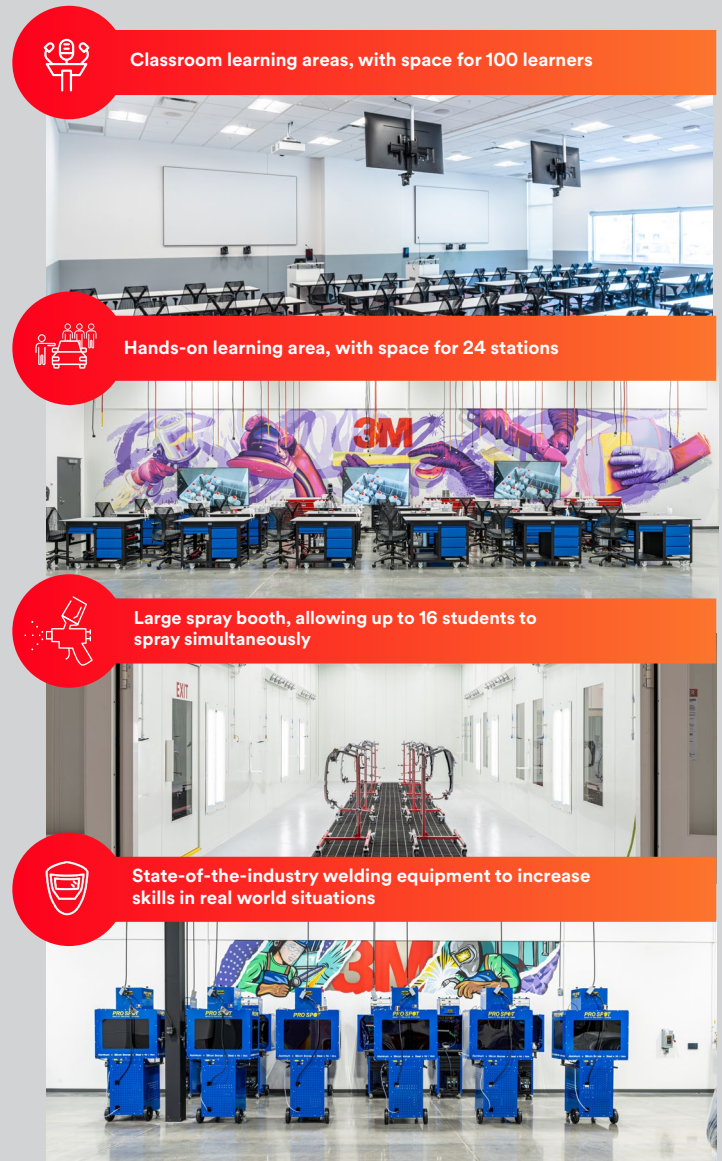

Body Repair Topics:

- ✓ Body Repair Tools and Application Techniques
